Dave Pappalardo
K9 Unlimited

Dear Dave Pappalardo:

I highly recommend Dave Pappalardo for any K9 related areas. His knowledge of dog behaviors, genetics, breeding and training is outstanding. Dave has a significant amount of knowledge in working, protection, competition and pet dogs. He has also surrounded himself with a vast array of people with years of experience in the United States and around the world enabling him to gain additional valuable knowledge. Dave has unlimited techniques to bring out the desired behaviors in dogs which allows him to think outside the box when encountering problems and creating imaginative scenarios. In the time I have known Dave I have come to seriously admire him. I try to mirror his techniques and absorb as much of his knowledge as possible. Dave has an extreme ability to bring out the desired drives in dogs from all areas. I have personally seen him bring extreme behaviors out of dogs that were seriously lacking prior to being brought to him.

Furthermore, his knowledge of selective breeding is excellent. The litters produced from his breeding have produced offspring that went on to excel as working dogs and various competition arenas. Also, due to Dave's networking throughout the world he is able to import serious working dogs and seek out any K9 with your desired traits.

K9 Unlimited is also able to create excellent handling skills and training skills. Dave's expertise in the field of decoying teaches his students the proper mechanics to bring about desired biting skills from working K9's. As a Police Officer this is something seriously lacking within the law enforcement K9 community. I can't recommend Dave enough to teach any agency proper decoying skills. Any K9 Unit would seriously benefit from Dave's teachings. He is extremely energetic and his enthusiasm for this field is unsurpassed.

Sincerely
